***Terminal Disclaimer***

1. The terminal disclaimer filed on 09/14/04 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of 6,772,074 has been reviewed and is accepted. The terminal disclaimer has been recorded.

2. The following is an examiner's statement of reasons for allowance: the terminal disclaimer over comes the obvious type double patenting rejection. Additionally, cited prior art does not teach or suggest the updating the estimate of the relationship based upon the measured response to the dither signal, as required by claim 1. Claim 9, 14, 21 and 22 specifies 'varying the size of the update . . . based upon a magnitude of change over time by at least one of the plurality of control commands', is not taught or suggested in cited prior arts.

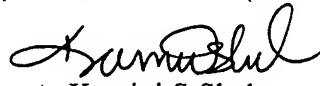

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
